FISCAL ANALYSIS

ASSUMPTION

Officials from the **Office of Secretary of State (SOS)** state many bills considered by the General Assembly include provisions allowing or requiring agencies to submit rules and regulations to implement the act. The Secretary of State's office is provided with core funding to handle a certain amount of normal activity resulting from each year's legislative session. The fiscal impact for this fiscal note to the SOS for Administrative Rules is less than \$2,500. The SOS recognizes this is a small amount and does not expect that additional funding would be required to meet these costs. However, it is also recognized that many such bills may be passed by the General Assembly in a given year and that collectively the costs may be in excess of what the office can sustain within its core budget. Therefore, the SOS reserves the right to request funding for the cost of supporting administrative rules requirements should the need arise based on a review of the finally approved bills signed by the governor.

Officials from the **Department of Social Services - MO HealthNet Division (MHD)** assume the proposal will have no fiscal impact. MHD assumes that participants are currently receiving all vaccinations that they are seeking.

Officials from the **Joint Committee on Administrative Rules (JCAR)** state the legislation is not anticipated to cause a fiscal impact to JCAR beyond its current appropriation.

Officials from the **Department of Insurance, Financial Institutions, and Professional Registration**, the **Missouri Department of Transportation**, the **Department of Public Safety - Missouri State Highway Patrol**, the **Missouri Consolidated Health Care Plan**, the **Missouri Department of Conservation** and **Harrison County Health Department** each assume the proposal would not fiscally impact their respective agencies.

Officials from the **Reynolds County Health Department** provided a response to **Oversight's** request but did not provide a statement of fiscal impact.

FISCAL IMPACT - Small Business

The proposal could have a positive impact on small business pharmacies by increasing revenues received from administering vaccines. However, there would likely be some cost associated with the pharmacists receiving training to learn how to administer the vaccines and the possible contraindications and adverse reactions associated with each vaccine.

FISCAL DESCRIPTION

The proposed legislation appears to have no direct fiscal impact.

This legislation is not federally mandated, would not duplicate any other program and would not require additional capital improvements or rental space.
